

FOR IMMEDIATE RELEASE

Ajax Public Library Planning for the Future

18 January 2023—Ajax Public Library is beginning the new year by planning for the future with a new Strategic Master Plan.

Strategic Master Plans are important documents that inform the vision of an organization for the coming years. Ajax Public Library is seeking the input of our community for a Strategic Master Plan that will span the next five years, and help shape Library spaces, programs, services, and experiences.

“The Town of Ajax has grown and changed significantly since the previous Strategic Plan was written in 2010,” says Sarah Vaisler, Chief Librarian & Executive Officer. “Our plan needs to consider the changes we’ve seen in our community, how people interact with technology, and the needs of our residents today and in the future.”

Whether you’re a regular Library customer or have not visited for a while, we encourage everyone to share feedback on the Library’s Strategic Master Plan by completing our online survey, visiting a public information session, or submitting written comments.

Public Information Sessions will be hosted at each Library location between January 23 and 24, 2023. Find the date and time for each location on the Library website.

The community survey will be available online and in Library branches beginning Monday, January 23, 2023.

Learn more about the Library Strategic Master Plan, the process, and ways to provide input on the Library’s website: www.ajaxlibrary.ca/masterplan.

More information about current Library services can be found on the Library’s website at www.ajaxlibrary.ca. For updates, be sure to follow the Library on Facebook, Twitter, or Instagram.
